

Tellus Mobi

Tellus Mobi

The Mobi paves the way for truly portable communication. The Tellus Mobi is the first communication device with an integrated mobile Phone option, allowing users to be able to make and receive phone calls.

The Tellus Mobi is a portable version of the popular Tellus 3+, providing the same versatility via the Windows Operating System. Designed with the ambulant user in mind it can be used with a wheelchair mounting system if required. The Mobi is supplied with MindExpress, keyboard, mouse, USB memory stick, USB hub, carry case & AC Adapter.
